EXAMINER'S AMENDMENT

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on November 30, 2006 has been entered. The Information Disclosure Statement (IDS) has been considered. The related applications referred to in the IDS that are owned by Assignee, Nautilus, Inc., of the present application have been considered and are cited in the Notice of References Cited, PTO-892.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows (same amendment as found in the Notice of Allowance of Sept. 13, 2006):

In the Claims:

A) Claim 9, line 2, replace "A" with --a-- to correct a typographical error.

3. The following is an examiner's statement of reasons for allowance: With regard to claim 3, the prior art of record does not disclose an exercise device as claimed wherein a plate of a

press plate mechanism is mounted to the top link of a four-bar linkage connected to a frame, a back support pivotal to the frame, and a transfer link having ends operably connected to the press plate mechanism and the back support. The Examiner understands the transfer link to be a link that transfers operation of the pivoting four-bar linkage press plate mechanism to operation of the pivotal back support.

With regard to claim 11, the prior art does not disclose an exercise device comprising the claimed pulley and cable structure in relation to claimed weight stack structure and body extension mechanism. In particular, the pulley and cable structure, and the transfer link connected between the press plate mechanism and the articulating seat structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
